

Dalhousie

Tier 2 Canada Research
Faculty of Medicine

Dalhousie University, Faculty of Medicine
(CRC) in Primary Care. The appointee is an
Professor.

Primary Care, in this context, refers to the health system
health care providers. It is nested within a community and
population approach in policy and health care delivery. Primary
research is a priority for Dalhousie University, Faculty of
Medicine (<https://medicine.dal.ca/about/>)

Cluster. Dalhousie University, along with Nova Scotia
institutions, industry, and residents, is a member of the Nova Scotia
Innovation Strategy (NS IHRIS) (<https://nsihris.wordpress.com/>)

CRC will be a part of the NS IHRIS research program.

Health Authority priorities and through work with other researchers in the inter-faculty Collaborative Health
Solutions research efforts.
